**mtm consulting s.r.l.** opera in quattro linee di prodotto

## **CE Marking**

mtm consulting Ltd approaches issues related to the Machinery Directive, PED and ATEX Directive and supports its customers, both machine manufacturers and user companies at all stages of the certification process: preparation of the technical file, preparation of the risk assessment, drafting of the manual instructions, drafting of the declaration of conformity and the provision of facsimile of the CE plate to be affixed on the machine.

If required also makes language translation of technical documentation. Even through specific partnerships with notified bodies mtm consulting Ltd supports its clients in dealing with them by providing all the necessary documentation.

## **Management Systems**

mtm consulting Ltd implements the customer's Industrial Management System UNI EN ISO 9001 for quality, ISO 14001 for the Environment, OHSAS 18001 for safety, EN ISO 50001 for energy management, UNI 10891 for the certification service for institutions private security ... (thanks to the collaboration with external resources of proven professionalism mtm consulting Ltd is able to provide support on many other certification schemes). mtm consulting Ltd supports its customers by providing all the necessary documentation for the implementation of a Management System and supports them in time to be attending the visits of Certification Bodies or by carrying out directly to the audit of the system.

## **Sustainable Development**

mtm consulting Ltd provides services in the field of sustainable development through the execution of studies of Life Cycle Assessment (LCA) on identifying the environmental impacts of a product / service throughout its life cycle. The aim of this analysis is to identify areas for improvement and to reduce overall environmental impact. Also in this area mtm consulting Ltd supports its clients in clearing their environmental impacts expressed in terms of CO<sub>2</sub> equivalent as well as analyzes the Carbon Footprint and Water Footprint.

## **Service**

This product line is transverse to the previous. In this area mtm consulting Ltd provides services related to: Health and Safety in Workplaces, information and training courses and much more.

**mtm consulting Ltd** has recently renewed the process of delivery of its services by integrating it with the "Consulting at a distance" through the use of a specific computer platform that allows you to give lectures on-line and equipped with all the tools they need to make optimal communication.

This means that, if you do not need it, it is useless to make long and expensive journeys replacing them with a value added service of the same, and that is in addition "**Zero Impact**".

---

**mtm consulting Ltd** offers a catalog of training courses that will be repeated twice a year.

The training courses offered cover the following topics:
